THE RIVAL GRANDFATHERS. BUCHANAN IS GUARDIAN, TATLOR

HAS GOT THE CHILDREN. Court Says the Grandchildren Have Been Abducted-They Are Out of This Juris-diction and It Can't Get Them, But

It Stands by Grandfather Buchanan In the long fight between Paternal Grandfather William Buchanan, a wealthy tobacco and inte dealer, and Maternal Grandfather William 1. Taylor, also a wealthy man, over the custody of their grandchildren, Charles L. J. Roderick, and Adelaide Buchanan, Surrogate Varnum has denied a motion of Taylor for the removal of Bucharan as guardian.

But the decision is an empty one, so far as present conditions are concerned, for the Tayor class long since spirited the children away. and Ruchanan, who has been nominally their guardian for more than two years, has been able to get them. Soon after Buchanan was spreanted guardian the children were abducted and Buchanan traced them to Canada, but when the pursuit got hot the children were taken to France. Where they are now ices not appear in the record of the case. Criminal proceedings were taken by Buchanan in 1888) to secure the children through a charge of abdustion against Taylor, but nothing came

The children are the offspring of Charles P. chanan son of William Buchanan, and of daughter of William L. Taylor. The wis 10 years old when he married wife three years older. In refuseing to remove Buchanan, Surrogate Variation of the numerous and unfortunate cases of family differences, where many charges as faculatercharges are made, and where, as I believe, they have been especially aggravated by differences between persons of the Christian faith, owing to their belonging to different seets. It is unnecessary to refer at length to the voluminous cases submitted on both sides. Suffice it to say that on Dec. 23, 18-28, the paternal grandfather of certain infants, Mr. William Buchanan, was appointed their general guardian by this court, but a day or so before his appendiment the children were abducted by members of their mother's family and have since been kept either out of the jurisdiction of this court or otherwises occurs and that the guardian, despite the greatest efforts on his part, has been unable for more than two years past to find them. The maternal grandfather of the infants then applied for the removal of the paternal grandfather as such guardian. If no guardian had ever been appointed by this court. I might possibly feel af liberty to exercise a wider discretion than I now feel authorized to do in deciding who should be appointed as guardian, but I find a guardian already appointed, the paternal grandfather of the infants, a gentleman who, I am satisfied by the proofs before me, is a person of unquestioned social and business standing and of ample means, who, although not young, is in the full possession of all his faculties, and is not, as has been auggested, limile to be unduly influenced by those adverse to the children's best interests. He agrees in the papers before me that the relatives of the maternal side shall have full opportunity to see the children as they may wish, whereas the relatives on the maternal side shall have full opportunity to see the children's interests may be a doubtful one, but I accept the responsibility imposed upon me and decline to remove a guardian heretofore appointed by this court, who, I am s
